Introducción al Machine Learning

08-10-2024

By: Felipe Flórez O.

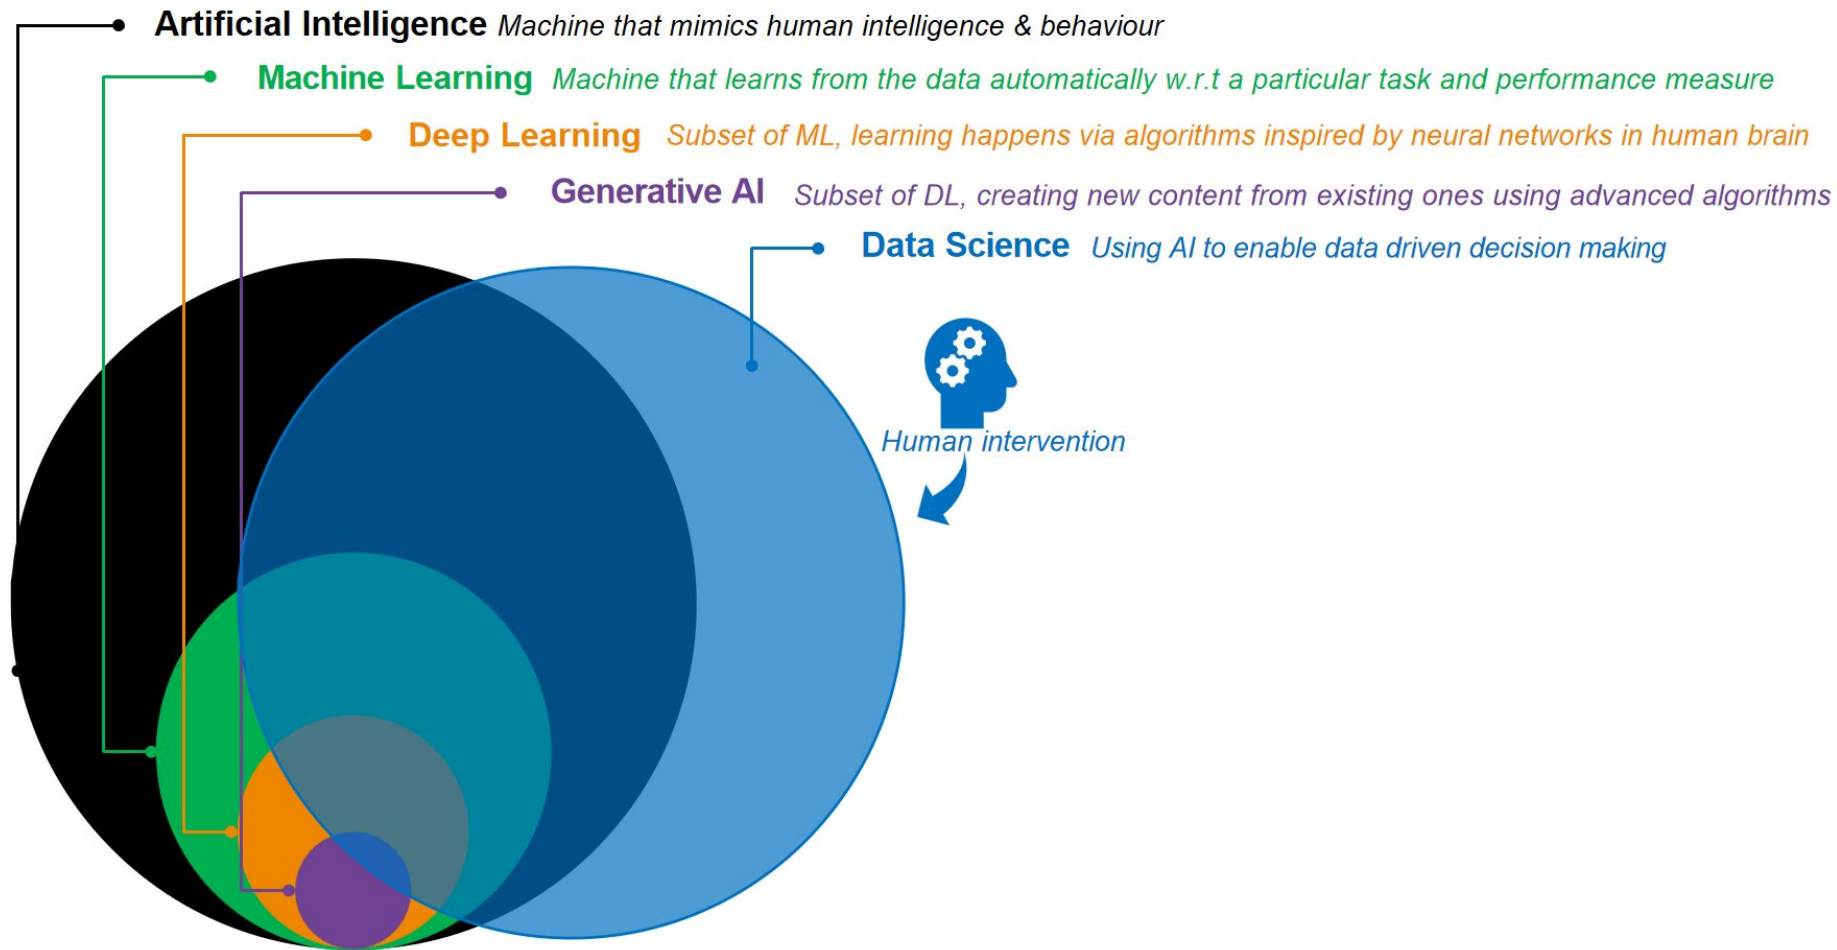

● **Artificial Intelligence** *Machine that mimics human intelligence & behaviour*

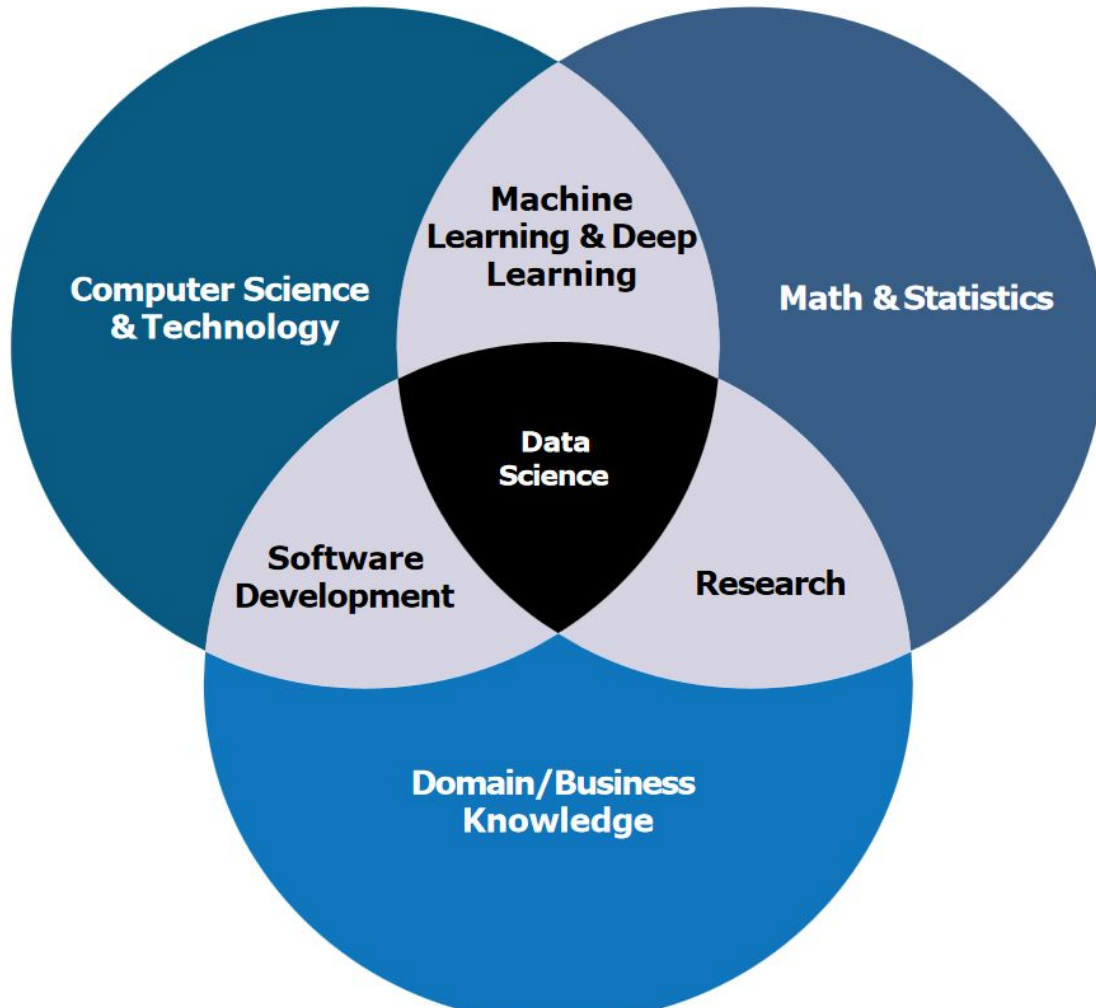

● **Machine Learning** *Machine that learns from the data automatically w.r.t a particular task and performance measure*

● **Deep Learning** *Subset of ML, learning happens via algorithms inspired by neural networks in human brain*

● **Generative AI** *Subset of DL, creating new content from existing ones using advanced algorithms*

Machine Learning

The model learns
the patterns in the data

Training Data

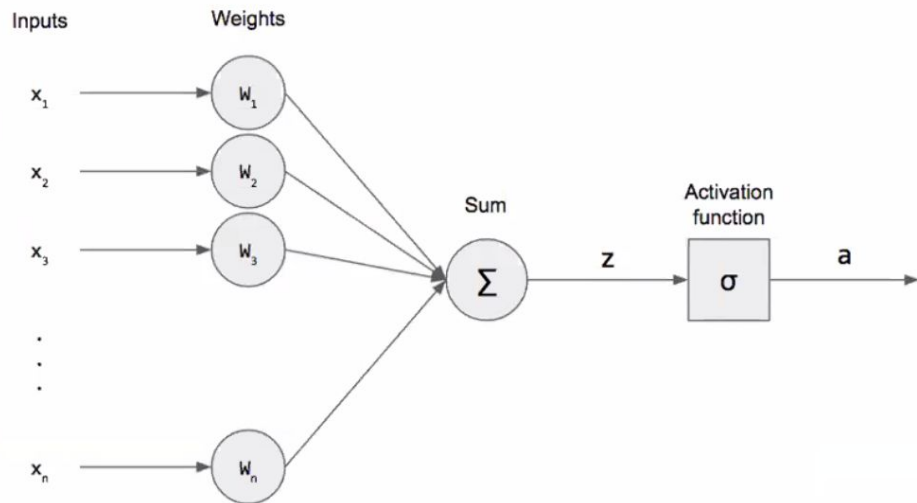

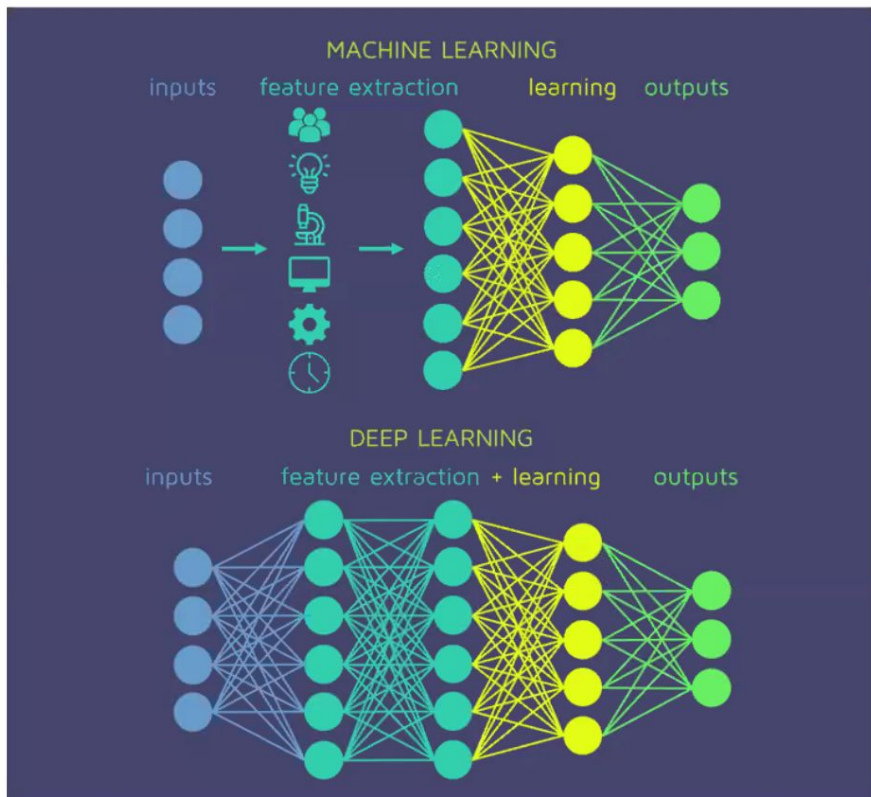

Predictions

Future Data

Deep Learning

Types of Machine Learning
